2. VARIABLE SPEED TYPE FC-V/ML-V RML-V/ERL-V TL-V

www.sunmaster-cnc.com

FC-V.ML-V.RML-V. ERL-V.TL-V Series | Features

Nylon safety gears in end train. (Not for every model) Shear pin in lead screw. Low voltage control in electrical cabinet.

E.V.S. HEADSTOCK

- Forced lubrication to all running points
- Hardened & ground gears and shafts.
- R.P.M. LED display indicator makes it easy to obtain the optional constant surface speed also improves cutting tool life.
- Electronic control panel located on top of headstock, with RPM display unit, speed control electric knob, emergency stop and motor start push button.
- Electronic infinitely variable speed with A.C. motor
- Two to three headstock gears (depends on different models) speed ranges supply a high torque in low range from 20 rpm to high speed in high range 2500 rpm max.

E.V.S. MODEL ELECTRIC CONTROL

- CE electric upon request.
- The electric cabinet is sealed protected against entrance of water, dirt and other contaminants.
- A main disconnect switch provided.
- Electric 1/4 HP pump for headstock pressure lubrication.
- Prolong life expectancy of gears and spindle.
- Combination of forced lubrication and oil bath system in headstock.

HEAVY DUTY SPINDLE

- Camlock type spindle
- Precision machined from forged alloy steel, hardened, precision ground & dynamically balanced.
- Three point support by high precision taper roller and ball bearings eliminates chatter when performing heavy cut.

(constant surface speed control) available as option upon request for E.V.S. models.

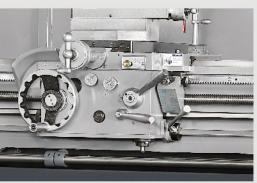

BED

- The ruggedly constructed bed is manufactured from Meehanite cast iron and stress relieved.
- Bed ways are hardened and precision ground.

COMPOUND REST

- The compound rest has T-slot for convenient mounting of tool holder.
- Both the cross slide and the compound rest screws are equipped with inch/metric graduated dials.
- The bottom of the compound slide is graduated in degrees for quick reference when swiveling.

APRON

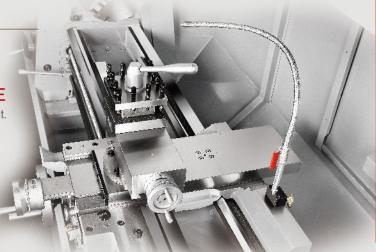

- The apron is a double wall construction, providing a firm support for power feed shaft.
- Choice of right or left hand wheel.
- Integrated automatic control for longitudinal and cross feeds. forward and reverse feeds.
- An interlock design prevents simultaneous power feed and thread cutting.

RUGGED TAILSTOCK

- Tailstock quill is graduated in inch/metric scales and has a tang slot for positive drive of tool.
- 2-step tailstock is available on request.

- Anti-float backlash eliminator is fitted in cross slide nut.
- Safety clutch is equipped to feed shaft.
- One shot lubrication for carriage and top slide.
- Designed with dual dials for inch system screw.
- Designed with metrical dial for metric system screw

FC-V Series

- All models with one piece solid stand.
- All models with universal feed gearbox & reversable apron.
- All models meet CE. (on request).
- All models with 80mm (3 149") spindle bore, ASA D1-8.
- All models cross slide is hardened and ground to prolong operation life.

FEATURES

- · All castings are properly stabilized and stress relieved.
- · Bed ways are hardened ground to min. HRC 48-55.
- · Turcite B coating between the bed and carriage.
- · Extremely low noise level.
- · Foot brake pedal provided.
- Built-in coolant pump fitting provided.
- · Wider bed way which give absorbs vibration.
- $\boldsymbol{\cdot}$ y- $\!\Delta$ spindle motor equipped to make sure smooth start and operation.

STANDARD ACCESSORIES

- · Backplate for 10"chuck
- · Dead center MT.5
- Dead center MT.4 with carbide tip
- Spindle center sleeve Ø85 Taper 1/19.18
- · Level pads...6~8 pcs
- · Tool set & Box
- · Operation manual & parts list

ERL-VTL-V Series Optional Accessories

DELUXE TYPE REAR GUARD

a 5C LEVER TYPE

COLLET CLOSER

a FACEPLATES ■ Slotted. For all models.

a 4 & 3 JAW CHUCK

b MICROMETER

5-STEP **CARRIAGE STOP**

d DRILL CHUCKS

- keyless and key type. All sizes available.
- LIVE CENTERS

DIGITAL READOUT SYSTEM (DRO)

Operator friendly readout systems reduce setup time and increase productivity.

Features available:

- Tool offsets for easy compensation of different tool sizes
- Instant radius/ diameter conversion reduces math errors and allows you to machine to print dimensions.
- 2 or 3 axes display.
- Preset and zero rest.
- Instant inch/mm conversion.
- Near-zero warning.
- Most popular brands.

c TELESCOPIC TAPER ATTACHMENT

Available for all models.

c TOOL POST **SAFETY GUARD**

C HAND WHEEL COVER

C STEADY REST

For all models with roller tips.

c POWER FEED

C WORKING LIGHT

C QUICK CHANGE **TOOL POST SET**

c FOLLOW REST

- For all models.
- With bronze or roller tips.

c SLIDING TOOL POST SAFETY GUARD
